

# THE GEMSTONES

We are Joe and Mary Stone, currently performing as “The Gemstones,” since our last name is Stone, and we love playing the “gems” of the past. We play primarily for senior living residents, songs from the 40’s, 50’s and early 60’s. We enjoy sharing our love of music with these appreciative audiences, sparking memories and bringing smiles to their faces.

For other venues and more diverse audiences, we expand our set list to include favorites from the 60’s, 70’s and 80’s, including lots of Beatles songs, as well as classic groups like CCR, the Monkees, The Foundations, and many more.

Joe is a gifted songwriter, musician and vocalist who can play any instrument, and has been performing professionally for over 50 years. For many years, he portrayed Paul McCartney in Beatles tribute bands, headlining in Las Vegas main showrooms and concert venues throughout the U.S. and Canada. He later formed new bands, performing both original songs and cover songs at a variety of venues. Mary has been playing keyboard in several of his bands for about 30 years. Together, their shared connection and joy of music shines through in their performances, and will make you smile!

We hope you enjoy listening as much as we enjoy playing for you!
